

DRINKING WATER TREATMENT PLANT

(FOOD GRADE MATERIAL + ADDITIONAL ALKALINE/MINERAL TECHNOLOGY)

Nakclean Water Solutions has been promoting a wide range of water Purifiers to the drinking and Process Water for the institutional Clients For school,college. Conforming the highest level of manufacturing excellence, These Products ensure that our clients enjoy a healthy life. Thanks to this commitment to product quality, Nakclean Water Solutions is today in the vanguard of the water Purification Industry.

Going Beyond Drinknig and Process Water, Nakclean Water Solutions now offers customized , total water and waste water treatment solutions.

AREA OF EXPERTISE

Industrial RO Plant

Electrocoagulation System (ETP)

Effluent Treatment Plant

Water Softener

Packaged Sewage Treatment Plant

Desalination Plant

Application

- ✓ Process Water for Industrial Application.
- ✓ Boiler Feed Water
- ✓ Water Purification System for School. Colleges,
- ✓ Hotels, Hospitals, Mall & Multiplex.

- ✓ Beverages & Food Processing Industry.
- ✓ Pharmaceutical Industry for High Purity Water

DRINKING RO PLANT

SYSTEM FEATURES :

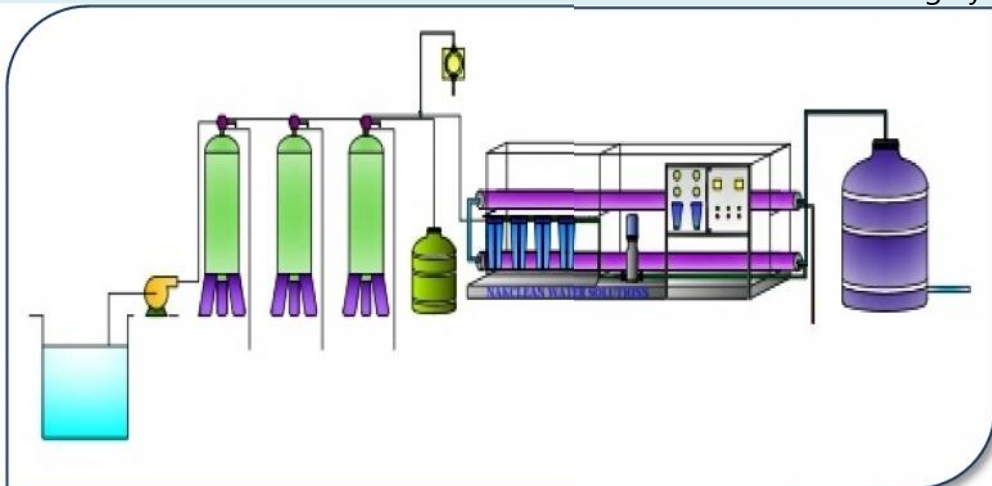

- Completely assembled/ Pre-Piped/ Pre-wired
- Auto start/Stop based on water level in the Tank
- Fully Power Protection
- Food Graded Materials uses
- Remove Complete Odor/Smell
- Inbuild Protection to High Pressure Pump by way of Low Pressure Switch/ High Pressure Switch
- Ozone Technology
- Glycerin filled SS Pressure gauges for durability
- Online Rotameter for Measuring Permeate/ Reject Flow
- SS Skid/PU Coated MS Skid
- Online TDS/Hour Checking
- Automatic Backwashing of filter available as premium Range
- **Alkaline Water/Mineralize Water (Customize)**

STANDARD INSTRUMENTS

- Flow Meter
- Pressure Switch
- Pressure Gauge
- Level Sensor
- Conductivity Meter

Option

- Automatic Backwashing System
- PH Correction System
- Cleaning System
- Post Filtration System
- Remote Monitoring Station

For Heavy Industrial Application

We are Provide Industrial RO Plant from 1 M3/H to 50 M3/H.

Specification, Features and colour are subjected to change without prior notice due to continous product increaments.
