

PHARMACEUTICAL WATER GENERATION SYSTEM

Nakclean Water Solutions has been promoting a wide range of water Purifiers to the medicine, Drug and Process Water for the Pharmaceuticals as per **GMP-WHO** Guidelines. and institutional Clients. Conforming the highest level of manufacturing excellence, These Products ensure that our clients enjoy a healthy life. Thanks to this commitment to product quality, Nakclean Water Solutions is today in the vanguard of the water Purification Industry.

Going Beyond Process Water, Nakclean Water Solutions now offers customized water Solution.

AREA OF EXPERTISE

High Purity Water Generation System

Electrocoagulation System (ETP)

Industrial RO Plant

Effluent Treatment Plant

Packaged Sewage Treatment Plant

Desalination Plant

Application

- ✓ Process Water for Tablet & Drugs Purpose.
- ✓ Liquid & Syrup
- ✓ Water Purification System for School. Colleges,
- ✓ Hotels, Hospitals, Mall & Multiplex.

- ✓ Beverages & Food Processing Industry.
- ✓ Pharmaceutical Industry for High Purity Water

PHARMACEUTICAL RO PLANT

SYSTEM FEATURES :

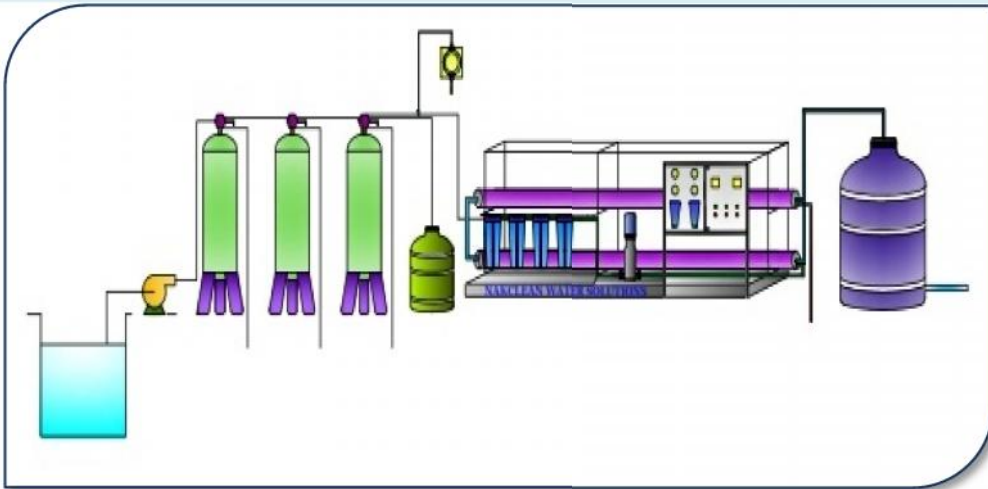

- Completely assembled/ Pre-Piped/ Pre-wired
- Construction Material & Pipe – SS316l
- Auto start/Stop based on water level in the Tank
- MCB for Plant Protection
- Raw water pump integrated with plant
- Inbuild Protection to High Pressure Pump by way of Low Pressure Switch/ High Pressure Switch
- Membrane from Dow/GE/Hydronautics/Toray
- Glycerin filled SS Pressure gauges for durability
- Online Rotameter for Measuring Permeate/ Reject Flow
- SS Skid/PU Coated MS Skid
- Customized Electrical Panel with Hour Meter
- Automatic Backwashing of filter available as premium Range
- Fully Control PLC/SCADA Based Fully Automatic System

STANDARD INSTRUMENTS

- Flow Meter
- Pressure Switch
- VFD System
- Pressure Gauge
- TOC Analyzer
- Level Sensor
- Conductivity Meter
- ORP Meter
- PH-Correction Meter

Option

- Automatic Backwashing System
- TDS Controlling < 1 PPM
- PH Correction System
- Cleaning System
- Post Filtration System
- Remote Monitoring Station

For High Purity Water System Application

We are Provide Water Generation System from 0.250 M3/H to 5 M3/H.

change without prior notice due to continuous product increments.
